Dear

Enclosed please find pre-operative scripts and consents for your upcoming surgery scheduled _____ at _____ .

Pre-Op EKG and Chest X-ray results are valid for 6months prior to surgery. Lab work is valid for only 60 days. **Two weeks** prior to your scheduled surgery date, all pre-operative testing should be completed and signed consents returned to the office. This provides adequate time for further evaluation of any abnormalities, if needed, without cancellation of surgery. Please do not hesitate to call the office with any questions or concerns.

Warmest Regards,

Evan Sorokin, MD
